PAINTERS TOUCH +

Painter's Touch Plus contains more solids and premium pigments providing ultimate hiding power and superior coverage, allowing you to complete projects faster and easier. It's a Premium brand of multiple-purpose spray paint that delivers superior coverage in a wide variety of classic and trendy colours.

Practical Coverage:	1.2m ² - 1.5m ²					
Dry Times:						
Touch	20 Minutes					
Handle	1 hour & full cure at 48 hour					
Recoat	Within 1 hour of first coat otherwise after 48 hours					
Shelf Life:	5 years					
Application:	Shake can vigorously for 2 minutes after mixing ball begins to rattle. Hold can upright 20 to 30cm from substrate and spray in steady back and forth motion, slightly overlapping each stroke. Keep the can in motion whilst spraying. Apply two or more light coats a few minutes apart to avoid drips and runs. Do not use near open flame. Note: Inexperienced operators should practice on scrap surfaces to first get the "feel" for spray paint application.					
Priming:	Use of the correct Rust-Oleum primer prior to application will provide superior adhesion, chip resistance, corrosion resistance and coverage. Priming is especially recommended for bare wood and metal.					
Substrates / Surfaces:	Wood, metal, wicker & most plastics					
Clean Up:	Lacquer Thinner

MILK PAINT BRUSH

Rust-Oleum's Milk Paint Finish creates a subtle matte, brushed effect with a light texture. Increased durability and adhesion properties built into the formula means Milk Paint Finish won't chip. Milk Paint Finish is easily layered in order to achieve the desired coverage. Available in 6 on trend colors, Milk Paint Finish will bring new life to any project while preserving an authentic antique feel.

Practical Coverage:		9.7 - 13.2m ² / L (from tds) Substrate depending				
Dry Times:						
Touch		30 min				
Handle		1 hours				
Recoat		2 to 4 hours				
Shelf Life:		3 years				
Application:		Do not apply paint on surfaces which are exposed to high humidity. Use when temperature is between 10° and 32°C and humidity is below 85% to ensure proper drying. Stir well before use. A high quality synthetic brush is recommended for application. Apply a light coat to your surface, brushing in a "V" pattern to achieve a washed look. Apply multiple coats to achieve desired coverage.				
Substrates / Surfaces:		Wood (raw and painted), metal, aluminum, glass				
Clean Up:		Soap and water

HIGH HEAT

Rust-Oleum® Specialty High Heat Spray retains color and finish up to 1200° F. Apply to grills, wood-burning stoves, radiators, engines or other metal items. Provides rust protection. Indoor or outdoor use. Durable, corrosion-resistant.

Practical Coverage:	Brush 9.5 m² / Spray 0.8 m²
Dry Times:	
Touch	Spray - 30 min / Brush 2 - 4 hour
Handle	Spray 1 - 2 hours / Brush 5-9 hour
Recoat	Spray within 1 hour of first coat otherwise after 48 hours / Brush after 9 hours
Shelf Life:	5 years
Application:	<p>Sprays: Shake often during use. Hold can upright 10-16" from surface and spray in a steady back-and-forth motion, slightly overlapping each stroke. Keep the can the same distance from the surface. Keep the can in motion while spraying. Apply two or more light coats a few minutes apart to avoid drips and runs. Do not use near open flame.</p> <p>Brush Goods: Mix thoroughly to ensure any settled pigment is re-dispersed. Thin material only if necessary with mineral spirits. For brush or roller application, thin no more than 5%. Do not thin with gasoline, lacquer thinner, turpentine, etc. Apply with a good quality brush, nap roller, or conventional spray gun. A second coat is not recommended.</p>
Substrates / Surfaces:	Ideal for the exterior of barbeque grills, wood stoves, radiators, fire pits, fireplace screens & automotive parts.
Clean Up:	<p>Sprays: Dries to touch in 30 minutes and to handle in 1-2 hours. Allow paint to dry for 1 hour before heating. In order to achieve full cure, the coating must be heat cured at 450°F for one hour. Product may emit smoke and harmless odor.</p> <p>Brush Goods: Dries to touch in 2-4 hours, to handle in 5-9 hours, and is fully dry in 24 hours. Allow paint to dry 24 hours before heating. When using the subject surface for the first time, open windows and provide ventilation as the new paint finish may emit smoke.</p>

ACCENTS

Practical Coverage:	1.1m²
Dry Times:	
Touch	15 minutes
Handle	30 minutes
Recoat	<u>Anytime</u>
Shelf Life:	5 years
Application:	Recommended for porous surfaces and bare wood and metal. For best hiding results, apply a basecoat of a color that blends well with the Stone finish. Do not try to achieve total coverage in one coat. Apply one light coat first. Wait 15 minutes until paint starts to set, then apply a second coat. If additional coats are needed, wait 15 minutes between coats.
Substrates / Surfaces:	Wood, metal, ceramics, glass & more. For use on interior surfaces only.
Clean Up:	Lacquer Thinners

LEAKSEAL						
Repair and prevent leaks on a wide range of demanding surfaces with Rust-Oleum® LeakSeal® Spray. This rubberized coating seals cracks, fills small holes and provides firm-but-flexible protection against moisture and rust on surfaces that need it most. Great for gutters, roofs, flashing, ductwork, PVC, masonry, concrete and more. Seals leaks and cracks water-tight. Paintable finish.						
Practical Coverage:			1.1m²			
Dry Times:						
Touch			2 hours			
Handle			2-3 hours			
Recoat			15-30 minutes with Leakseal again. Can be top-coated with water-based or oil-based paints after 24 hours.			
Shelf Life:			5 years			
Application:			It is recommended to apply a light first coat. Apply a second heavier coat to ensure proper coverage. A thicker film can be achieved by moving the nozzle closer to the surface. Initial spray may have some foaming or bubbling, but will dissipate as the coating dries. For best results, apply 2 coats.			
Substrates / Surfaces:			Gutters, roofs, flashing, ductwork, PVC, masonry, concrete			
Clean Up:			Lacquer Thinners

PEELCOAT

Rust-Oleum® Peel Coat® is a peelable rubber coating that infinite customization for vehicles. This premium formula is easy to peel, safe to wash and can be applied to metal, plastic, chrome, glass and more. The all-weather coating also protects against rust and road debris. Recommended removal within 6 months. Paint rims, racing stripes or add other customizations to your vehicle. Peelable rubber coating allows you to change up your look whenever you want. Can go through automatic car wash or be hand washed.

Practical Coverage:	0.75m ²
Dry Times:	
Touch	20 minutes
Handle	1 hour
Recoat	20 minutes
Shelf Life:	5 years
Application:	Wash vehicles thoroughly and ensure you've removed any wax or grease from the surface. Make sure the surface is completely dry before applying Peel Coat. Cover and mask off any areas that should not be painted with tape, plastic sheeting, etc. Target 50% coverage on the first coat and apply four or more coats for complete coverage. The more coats, the easier the paint is to remove. Allow each coat to dry to a finish. This should take about 5-10 minutes between coats. Begin removing tape and other masking immediately after the last coat has been applied to keep clean edges. Let Peel Coat set for at least one hour before touching or driving the vehicle, wait at least 24 hours before washing. Remove Peel Coat within 6 months
Substrates / Surfaces:	Metal, plastic, chrome, glass
Clean Up:	Lacquer Thinners

FLUORESCENT

Spraymate Fluorescent spray paint is an multipurpose, high coverage spray paint for interior and exterior use. Spraymate's exclusive formulation results in a matt finish that does not crumble, flake or rub off. Ideal for hobby toys, safety equipment and school projects.

Practical Coverage:	0.8m ²
Dry Times:	
Touch	5-10 minutes
Handle	20 minutes
Recoat	20 minutes
Shelf Life:	5 years
Application:	Always use a white primer before applying. For a gloss finish, apply only polyurethane clear gloss (not clear lacquer). For polystyrene applications, apply 2 coats of PVA paint and ensure that the polystyrene is completely covered before applying Fluorescent.
Substrates / Surfaces:	Wood, metal, stone, ceramic (not glazed), plastic
Clean Up:	Lacquer Thinners

	2534	6007276001209	Spraymate	Wood	Polyuerthane Clear Satin	250ml

ARTIST FIXATIVE

SPRAYMATE® Artist Fixative is a fast drying fixative that provides 100% protection against dusting, smudging and fading to most forms of dry media. Spraymate Anti-Tarnish is a transparent and protective coating with excellent adherence to silver, copper, nickel, tin and brass. Anti-Tarnish prevents discolouration and acts as a protective layer through which liquids and other chemicals cannot penetrate.

Practical Coverage:	0.8m ²					
Dry Times:						
Touch	5-10 minutes					
Handle	20 minutes					
Recoat	20 minutes					
Shelf Life:	5 years					
Application:	Compatibility testing is a must! Test product on something other than the finished product before using.					
Substrates / Surfaces:	Metal, Brass					
Clean Up:	Lacquer Thinners					
Product Image	Product Code	Barcodes	Brand	Platform	Description	Size
	2601	6007276001612	Spraymate	Arts & Crafts	Artist Fixative Gloss	250ml

CHALKBOARD

SPRAYMATE Chalk Board spray paint is a lacquer-based spray paint which forms a writable and erasable chalkboard finish. Once the chalk board surface is dry and in use, it can be easily wiped with a wet cloth, repeatedly.

Practical Coverage:	0.8m ²					
Dry Times:						
Touch	5-10 minutes					
Handle	20 minutes					
Recoat	20 minutes					
Shelf Life:	5 years					
Application:	With a new wood, sand down the surface ensuring a smooth surface. Use a grey primer as a base coat. Use self-etch primer on glass and other smooth or glazed surfaces. Apply 2 coats of chalkboard, and allow it to dry for 2 hours before use.					
Substrates / Surfaces:	Walls, Kids Projects, Wood, Glass					
Clean Up:	Lacquer Thinners
